To Whom it May Concern,

I highly recommend Wojtek Tomaszewski as a candidate for employment. Wojtek was employed by Yamaha Corporation as a senior designer from 2018 to 2021. As general manager of the design department, I am fond of his high design skills, not only in the design of our company's musical instruments but also in a wide range of developments such as advanced technology and design exhibition. He has the spirit to look out with curiosity toward new domains.

With his aesthetic sense that cares about every detail, Wojtek greatly contributed to our product designs. In developing a digital keyboard, he showed his excellent sense of shaping a minimal and contemporary design interpreting the piano as a modern digital instrument. He was also appointed as a designer of audio equipment for professional use.

His activities were not limited to product design. Wojtek was one of the keen planning members of a design exhibition, presented at Milan design week 2019, for which he contributed to the design concept and the venue design.

While Wojciech's professional acumen as a designer was immensely valuable to our company, diligent and reliable, he was also an excellent team player. It was a great pleasure for us to work with him.

He would add value to any company, and I recommend him for any endeavour he chooses to pursue.

Sincerely,

Manabu Kawada
